Komla Etonam Georges EKLOU

Full Stack & Web3 Developer

Computer Science graduate with experience in web and Web3 application development. Passionate about designing reliable, high-performing solutions, I work across front-end and back-end development with JavaScript, TypeScript, Vue.js, Nuxt.js, React and APIs. Rigorous, autonomous and analytical, I am looking to contribute to dependable products as a Full Stack Developer.

Professional experience

May 2025 - Present

Globe & Citizen
Canada

Full Stack Developer - Smart Contract Integrator

- Integrated smart contracts.
- Delivered back-end and front-end features.
- Created tests.

Mar 2025 - Present

W3 Frame
Lome, Avedji

Web Developer

- Built WordPress websites.
- Delivered web-development training.

Dec 2024 - Mar 2025

Prodicom Inter Togo
Tsevie, Togo

Customer Service Intern & Sales Analyst

- Analysed customer data to identify purchasing trends and growth opportunities.
- Produced detailed reports on product and sales performance.

Aug 2024 - Oct 2024

W3 Frame
Lome, Togo

UI Integration

- Created and integrated pixel-perfect visual mockups for websites.
- Developed web applications.

May 2024 - Aug 2024

New Brain Factory
Klikame, Lome, Togo

Web Developer Intern

- Designed an e-commerce web application with React / Next.js for my final-year project.

Education

Nov 2021 - Jul 2024

UCAO UUT
Lome, Togo

Bachelor's in Engineering Sciences - Computer Science

- Application Development specialisation.
- Honours: Assez bien (Good).
- Three-year degree in technological sciences.
